Delivering the capacity, reliability and flexibility required for the most demanding operators, the new Maeda MC305CB-3 builds on the successful legacy of the MC305C-3 model. Equipped with a strong lithium-ion battery it provides zero emissions and still equals its predecessor in both operation speeds and lifting capacity.

The MC305CB-3 is equipped with a fast charging lithium-ion battery from Toshiba. The crane can be operated for up to a full working day if charged during operation, and it is fully charged in only 4.5 hours. Since operation is possible while charging it facilitates the use and delivers minimum downtime. Welcome to the green way of lifting.

Save energy with the two ECO modes.
